Sir:

In response to the official letter dated October 2, 2001, please reconsider the above-captioned application in light of the following amendments and remarks.

IN THE CLAIMS

13. (Amended) An apparatus for capturing stinkbugs consisting essentially of:  
a bottom portion for attracting the target insect species and for directing said target insect species toward and into a top portion for the capture thereof;  
said bottom portion comprising at least a first and a second fin, said first fin being disposed in a first substantially vertical plane and said second substantially vertical plane, said first and second fins extending radially outwardly from a common longitudinal axis defined by a line of intersection of said first and second substantially vertical planes;
